

## THEY CATER TO WHITES.

Social Nonsense in the Windy City—Dr. Wesley's Lecture—The Women Organized for Good Work.

Chicago, Ill., Special—Bishop A. Grant is in the city for the purpose of organizing the Institutional church. Rev. Reverdy Ransom has been appointed as pastor and superintendent. A Mr. Reed of Chicago has invented an underground trolley, that experts say will revolutionize the workings of the electric street railway.

Miss Katie Jordan of Kansas City, Mo., teacher of music and art in Lincoln Institute, Jefferson City, Mo., Prof. and Mrs. T. G. Childress of Pine Bluff, Ark. and Miss Dora Young, teacher in public schools, Kansas City, Mo. are the guests of Mrs. R. M. Hancock, 8437 Dearborn street.

MRS. DANIEL H. WILLIAMS.

The Colored Women's South Side Republican Club of which Dr. Carrie Golden is president, is making rapid progress in its work, and will soon be established at headquarters.

The United Brotherhood have made formal application for their charter. Business is good and everything is pointing toward a successful future.

Mrs. Dr. Daniel H. Williams has been unanimously chosen as the director of the Kindergarten Department of the Institutional church. This highly accomplished lady is much admired and respected and was the most popular selection that could have been made.

Chicagoans are much disturbed over a recent order to the "bad" element, that will place them in the colored district, on State and Dearborn streets and Armour avenue.

Dr. Allen A. Wesley, one of the oldest physicians of Chicago, has returned from an extended trip through the East and South. The Doctor addressed several organizations, among them, The Association of Military Surgeons of the U. S. of New York City. His subject was "The Spanish-American War as seen by the Military Surgeon." He also attended the American Medical Association of Atlantic City, N. J. and the alumni association of Fisk University, Nashville, Tenn. of which university he is a graduate. Dr. Wesley has recently been elected president of the medical staff of Provident Hospital.

Chicago is overrun with colored white people. In the East and down South they have black mothers and a variegated lot of fathers. They come to Chicago and pass for white, when they can make it. When they are run to cover, they then try to edge in with the colored people, and usually get the cold shoulder. There is another element here who cater to white company, the

white company hires of these pretentious negroes and turn them down; then they turn to the colored brother to be given the "marble heart." How much more sensible it would be for these Negroes to not misrepresent themselves, and keep the respect of their kind friends even though they be black. Ashoddy Negro is a very shoddy article; so we find them here, and they are well known.

## THE SUNFLOWER STATE.

The City on the Kaw—The Mecca for the Unwashed Democracy.

Kansas City, Mo., Special—Kansas City has at length successfully passed through the throes of its first National Democratic Convention and is ready to settle down to legitimate (?) business. During convention week many notable democrats of color were present from different sections of the country. These leaders declare against McKim's war policy and claim he has not used his official influence to protect the Negroes in the South from mob violence. They declare against Roosevelt on the ground that he ignored the bravery of the Negro soldiers in the memorable fight of San Juan hill.

We would be glad to see any logical argument that will refute these declarations.
